Red Rose Mastery Maths is a comprehensive scheme offering full coverage of the National Curriculum and Early Years Framework from EYFS to Year 6. Built on the NCETM's Five Big Ideas of Teaching for Mastery, the core ethos of the scheme is to develop children's mathematical understanding through carefully crafted modelling and questioning and children actively thinking and learning.

Unlike most other schemes, Red Rose Mastery Maths uses a spiral curriculum approach which reduces cognitive load, supports retention and enables children to make connections across the different strands of mathematics. Objectives broken down into smaller steps of progression and revisited and built on throughout the year.

## **Breakfast and After School Club**

We operate a breakfast club each morning from 7.30am until 8.45am. The children will be taken to their class by the club staff ready for the start of the day. The club operates from the school hall.

The children will have breakfast and engage in some structured play activities with other children. The club is open to children of our school from reception to year 6. The current cost of the club is £6.00 per daily session.

We also operate an after school club each evening from 3:30pm to 6:00pm. This operates in a similar way to the breakfast club where children are collected from classrooms and taken through to the hall, registered, have a healthy snack and then once again engage in structured play/craft activities. The current cost of the club is £8.00 per daily session.

The club is operated by trained staff employed by the school. All staff are DBS checked and receive annual safeguarding training.
